

‘Celebrating a Life’ Unique Artist Designed Memorials

‘To Live in the Hearts of Those We Love is not to Die’

Unique Artist-Designed Memorials

We are artists who design unique headstones, plaques & memorial features, which celebrate, in words and images of simplicity and grace, the unique life of the person they commemorate

Losing a Loved One is one of the most daunting and devastating experiences any of us will ever face. Being involved in the design of a suitable stone to celebrate the life that has passed can help us in the gradual process of coming to terms with our loss

Say it in Stone - We work closely with you to help you find the shape & type of stone, & the words & images that best express the life to be celebrated.

From simple name & dates - to a poem or meaningful quote we work with you to design inscriptions & images to create the most fitting & durable memorial

Designing a Stone

Type - Colour - Texture - Shape - Dimensions
Inscription - Lettering Style & Size - Images

Curved Top Sandstone
Semi-Circular Ogee Celtic Blue
Gothic Top Limestone

Type, Colour, & Texture of Stone - We design in a range of stones, mainly British, including Sandstone, Limestone & Slate. Each stone is quarried & cut to client order

Shape & Dimensions - Stones can be a formal shape (as at the top of the page), circular, rough hewn or whatever is required. We can design in a wide variety of stones in various shapes & sizes

Lettering Style – Trained as letter designers we design in a range of scripts to suit each commission

Images - If it can be put on paper it can be inscribed in stone. Images we have designed on headstones range from religious motifs, to animals, landscapes, buildings, symbols of hobbies and activities, & drawings by children – most things are possible

Commissioning a Stone

Design – Quote – Draw – Inscribe – Deliver – Fix

Drawing - Once we have developed the design together, & agreed the quote we produce a drawing for your final consideration, alteration & approval

Inscription - On approval the design is transferred to the stone & inscription begins. We are driven by a passion for our materials & experienced in working in a range of styles

Fixing – The headstone is fixed in position in a solid concrete base set 12” into the ground. The size & shape of this style of base keeps the stone upright, level & secure

A Unique Work of Art - The resulting stone is a unique, long lasting, personalised work of art providing an inspiring, restrained & dignified memorial reflecting the individuality of the person whose life it commemorates

Whatever you require in stone, we can help:

“Imagination is Eternity”
William Blake

If it can be drawn on paper it can be inscribed in stone

STONE SCRIBE STUDIOS

Diana Hoare has been producing fine lettering & sculpture for over 25 years, training first as a calligrapher, then as a stone carver. Diana & Paul Hoare have been working as a brother & sister team designing stone work since the turn of the century

Why We Design Headstones – Trained as a professional calligrapher Diana started design in stone in 1984 after the death of her mother was followed in quick succession by the loss of her second child at the age of six weeks. Diana designed & carved a stone for her baby son, herself. Engaging her creativity in this way proved to be a positive part of the bereavement process. Paul is also familiar with bereavement having also lost his parents & a child

Engaging Your Creativity - We draw on personal experience to help people bring their own creativity to bear in the development of a design that truly reflects the personality & life of their loved one.
Our stones can be seen in churchyards & cemeteries throughout the UK and abroad
